

Pain and Fatigue Research Study Center

Benjamin Natelson, M.D. at Mount Sinai Hospital (NY)

Background

The Pain and Fatigue Research Study Center at Mount Sinai is looking for patients suffering from Long COVID with severe fatigue to be in a 6 week trial of vagus nerve stimulation to potentially improve their health related quality of life. The research study, to be done remotely, is designed to determine which of two possible investigational treatments produce the best outcome. There is no compensation.

Eligibility

Female and Males
between the ages of 21-70

Fulfill criteria for CFS or
Long COVID

BMI of 30 and under

Further screening will determine your eligibility.

Communication

If you are interested in possibly participating in this research study, please call us at **212-844-6665** or email us at PainandFatigue@mountsinai.org

Effective Date: 8/30/2024
End Date: 10/23/2024
